

TAHIR IKHLAQ

About Me

As a dedicated and enthusiastic Computer Science student, I am passionate about developing innovative web solutions. With a strong foundation in frontend, I possess a keen eye for design and a solid understanding of user experience principles. My goal is to apply my front-end development skills in a dynamic internship where I can contribute to exciting projects and continue to grow professionally. Eager to bring my creativity, technical skills, and problem-solving abilities to a forward-thinking team, I am ready to take on new challenges and make a meaningful impact.
